- **Portfolio:**

PROFESSIONAL SUMMARY

Software Engineering student at Helwan National University with hands-on project experience in Python, machine learning, deep learning, and responsive web development. Built classification models with scikit-learn and TensorFlow, a Minimax-based game AI, and a range of JavaScript web applications. Completed a 120-hour Advanced Data Science & AI program. Seeking an entry-level Software Engineering role where I can build reliable software and grow within a collaborative team.

SKILLS

- **Programming:** Python, C, Java, JavaScript
- **Front-End**: HTML, CSS, JavaScript, Responsive Design, DOM Manipulation, REST APIs, Local Storage
- **Artificial Intelligence & Machine Learning:** TensorFlow, scikit-learn, CNNs, Neural Networks, SVM, KNN, Decision Trees, Random Forest, Minimax, Alpha-Beta Pruning
- **Data Analysis & Visualization:** pandas, NumPy, Excel
- **Robotics Software Development:** Automation, control systems, sensor integration
- **Network Simulation & Troubleshooting:** Cisco Packet Tracer
- **Algorithm Optimization & Problem-Solving**

WORK EXPERIENCE

Sales in Star Wood – Office Furniture *May 2022 — Present*

PROJECTS

Artificial Intelligence & Machine Learning :

- **Gomoku AI Game** — AI-powered game using Minimax with Alpha-Beta Pruning for optimal decisions.
- **ML Model Implementation** — Built classification models (SVM, KNN, Decision Trees, Random Forest) on real datasets.

- **Deep Learning with Fashion-MNIST** — Neural network using TensorFlow with Dropout and BatchNorm for improved accuracy.

Web Development :

- **Sports News Website** — Multi-page sports platform with themes, multilingual support, and responsive design.
- **ShopZone** — Full-featured shopping website with product management, subscriptions, and admin panel.
- **FitCore Gym** — Responsive gym website with membership plans and clean UI.
- **DJI Mavic 4 Pro** — Modern product landing page with sleek design and animations.
- **The UX Review** — Platform for collecting and displaying user experience feedback.
- **مدبّر (Smart Finance Manager)** — Web app for tracking expenses and managing budgets.
- **GameArena** — Interactive gaming platform with dynamic content and categories.

Network Simulation & Design :

- **Network Simulation & Optimization** — Designed and optimized networks using Cisco Packet Tracer for performance and security.
- **Network Infrastructure Design** — Simulated scalable network systems with high reliability and low downtime.

Data Analysis & Preprocessing :

- **Customer & Feature Analysis** — Data preprocessing with pandas and NumPy including PCA, outlier detection, and feature selection.

EDUCATION

Faculty of Computers and Information, Helwan National University *Sep 2023 — Present*

CERTIFICATIONS

- **Advanced Data Science & AI**, TechTrek (120 hours, remote) | September 2026
- **Certified in Artificial Intelligence & Machine Learning –** Applied Engineers Syndicate
- **AI & Machine Learning Course Completion –** Route Academy
- **Front-End Development Course Completion –** Route Academy
- **English Language Course –** American Institute of Professional Studies (Through CONSEPT)

LANGUAGES

- **Arabic:** Native

- **English:** Professional Working Proficiency
